Christmas 1941

This is us on Christmas and weer having lots of fun even if Pop won't let me run my eletrick train. My names Jimmy 8 years old and thats my sister Dot with her new doll. Shes only 5. Mom just looks at her new cote in the mirror and akts proud. On the inside pages theres some pitchers of the things we did before Christmas came.

Pop took me to a big store and made me talk to the Santa Claus there but I talked loud so Pop could hear me too. It worked all rite be cause I got some of the things that I wanted and peeple aught to be satisfied with the things they get.

The most fun I had was on the eskalaters after I gave Pop the slip. I hollered at him and he came after me but I was coming back down when he was riding up and he couldnt ketch me till I got sorry for him with all those bundles and waited on him.

I gess Pop herd me say I wanted a train becuz we went there first. We looked a long time then I wanted to see something else but Pop kept on showing me how the swiches worked and a masheen loded cole on a car. It was awful hard to get him a way to see other things.

Christmas Eve me and Dot slipped out of bed and peeked in the living room where Mom and Pop were fixing things and Pop fell off the step ladder and said some thing he would spank me for if I said it. Now look on the front page again and see how happy our Christmas was.

MERRY CHRISTMAS!

Your trolley and bus operators are wishing hard that you'll get the good things you want and that this Yuletide will be chock full of happiness for you.
